LIST OF DEFINED TERMS

ANNUAL ALLOCATION Twenty-five (25) Free Nights each member (as defined below) receives within seven (7) to ten (10) business days of membership renewal/activation.

ANNUAL INVENTORY CAP The maximum number of hotel rooms required to be allocated per year. This cap is based on a percentage of the total number of available room nights per year at the hotel.

BOOKING WINDOW Ninety (90) days prior to the first date of the reservation.

FS Rate code for IHG Owners Association Free Nights Program.

INIOA Rate category for IHG Owners Association Free Nights Program.

MAXIMUM INVENTORY CAP PER NIGHT The maximum number of hotel rooms required to be allocated per night. This cap is based on the total number of rooms in the hotel and is subject to a hotel's forecasted availability.

MEMBER An individual with a valid (current year) IHG Owners Association Member Benefits Card.

MEMBERSHIP ACCOUNT A Principal Correspondent and any additional affiliated cardholders.

MINIMUM INVENTORY REQUIREMENT PER NIGHT The minimum number of hotel rooms required to be allocated per night. This requirement is based on the total number of rooms in the hotel and is subject to a hotel's forecasted availability.

PROGRAM The IHG Owners Association Free Nights Program.

OVERVIEW OF HOTEL PROTECTIONS

- All bookings are validated through IHG® Rewards Club. This ensures that only members in good standing are able to book free nights.
- A 90-day booking window facilitates yield management and limits exposure of room consumption by any owner whose IHG Owners Association membership has lapsed.
- The Program automatically calculates a cap on the number of rooms member hotels are required to allocate to Free Nights on a nightly basis.
- A cap on each member's Annual Allocation, as well as a limit of one stay per month, per member at each host hotel, prevents excessive use of the Program.
- A cap on the inventory required to be allocated to the Program on an annual basis helps ensure that host hotels are not providing an inequitable number of free room nights.

HOTEL PROGRAM REQUIREMENTS

1. INIOA Rate Category Requirement

As a member of the IHG Owners Association, your hotel(s) must participate in the IHG Owners Association Free Nights Program. The Program is available through IHG Concerto™. Members can book free nights through the IHG Rewards Club website, on the IHG® mobile app or by calling the Dedicated Members Reservation Line.

The INIOA Rate Category is automatically loaded for each member hotel by IHG® within three weeks of membership renewal/activation. This rate category is associated with a Flat Rate Code (FS) of “1.00” (or “1” if the hotel does not use a decimal currency). Since this is a free night, any room charge or tax that appears on a folio should be adjusted off upon check-out. Incidental charges are separate and are not included in the free night rate. The INIOA Rate Category must be maintained as loaded by IHG.

An INIOA Rate room is defined as a standard room. The rate must remain linked to a standard room type and may not be linked to room types that are frequently sold out or non-displayable.

Member hotels that do not have the INIOA Rate loaded correctly for all room types will be in violation of the Program. A violation may lead to termination of the member hotel’s IHG Owners Association membership, the termination of Member Benefits Card(s), and/or termination of the entire membership account, including all cardholders.

INIOA Free Night stays at all member hotels count towards total rooms available for the hotel occupancy calculation for Reward Night reimbursement qualification.

2. Room Allocation Requirements

Room allocation requirements are set up by IHG and managed on a daily basis through IHG Concerto. No hotel action is needed.

Hotel colleagues should never change or assign a room type for an INIOA reservation until the guest is checking in. If a guest contacts the hotel to request a room-type, this can be logged on “Trace” as a special request and

the specific room type (if available) can be assigned to the guest upon check-in. Assigning a room type ahead of check-in may prevent members from canceling or modifying their reservations.

Minimum Inventory Requirement

Minimum room requirements are based on the total number of rooms in the hotel.

Maximum Inventory Cap

To protect member hotels from excessive Program bookings, a nightly maximum inventory cap is set based on the total number of rooms in the hotel and is subject to a hotel's forecasted availability.

The following Hotel Inventory Chart illustrates the minimum and maximum room thresholds:

Hotel Size	Minimum Inventory Requirement Per Night	Maximum Inventory Cap Per Night
Up to 100 rooms	1	4
101-250 rooms	2	6
251 and more rooms	3	8

Yield Management

All Program bookings are subject to hotel availability. Hotels do not need to “hold” rooms to meet the Minimum Inventory Requirement Per Night threshold; if the hotel sells all rooms, the hotel will not show any availability for the Program rate.

When a hotel is forecasting low occupancy and has met the Minimum Inventory Requirement for that night (as listed in the chart above), additional Free Nights may be sold up to the hotel's Maximum Inventory Cap, depending on availability.

Annual Inventory Cap

Each hotel has an Annual Inventory Cap of .5% to prevent excessive use of the Program. If a member hotel reaches the Annual Inventory Cap, the IHG Owners Association will provide the option of discontinuing the INIOA rate for the

remainder of the year. Hotels may offer additional rooms under the Program beyond the Annual Inventory Cap Per Night, at their discretion.

Contact the IHG Owners Association to request a review of INIOA rate room consumption for the current year if your hotel may be approaching (or may have exceeded) the Annual Inventory Cap.

How the Room Allocation Works

Instead of inventory being offered above the hotel's Minimum Inventory Requirement Per Night up to last room availability (which would detract from the number of rooms the hotel could potentially sell under the Best Flex rate), the Program will allow additional bookings ONLY if the hotel is forecasting limited demand during those potential booking dates.

Example 1

An 87-room hotel would have the following thresholds (per the Hotel Inventory Chart):

- A Minimum Inventory Requirement Per Night of one (1)
- A Maximum Inventory Cap Per Night of four (4)
- On a forecasted low-occupancy night, this hotel would show availability of up to four (4) rooms (Maximum Inventory Cap Per Night)
- On a forecasted high-occupancy night, this hotel would show availability of one (1) room (Minimum Inventory Requirement Per Night)
- On a sellout night, this hotel would show zero (0) availability. (Minimum Inventory Requirement Per Night would be superseded.)

*NOTE: At the hotel's discretion, the Annual Inventory Cap may be put into effect once this 87-room hotel has provided 159 rooms under the Program (87 rooms * 365 days * .5% = 158.8). In such event, no additional rooms would need to be allocated for the remainder of the calendar year.*

Example 2

A 350-room hotel would have the following thresholds (per the Hotel Inventory Chart):

- A Minimum Inventory Requirement Per Night of three (3)
- A Maximum Inventory Cap Per Night of eight (8)
- On a forecasted low-occupancy night, this hotel would show availability of up to eight (8) rooms (Maximum Inventory Cap Per Night)
- On a forecasted high-occupancy night, this hotel would show availability of three (3) rooms (Minimum Inventory Requirement Per Night)
- On a sellout night, this hotel would show zero (0) availability. Minimum Inventory Requirement Per Night would be superseded. As rooms are sold (e.g., under the Best Flex rate), the availability of rooms in the Program would progressively diminish from three (3) to zero (0).

*NOTE: At the hotel's discretion, the Annual Inventory Cap may be put into effect once this 350-room hotel has provided 639 rooms under the Program ($350 \text{ rooms} * 365 \text{ days} * .5\% = 638.8$). In such event, no additional rooms would be allocated for the remainder of the calendar year.*

3. Blackout Dates

Member hotels are allowed fifty (50) Blackout Dates per calendar year for Rate Category INIOA. It is the hotel's responsibility to load and manage Blackout Dates for this rate category for high demand period(s) and/or special event dates. For more information on how to load Blackout Dates, go to Merlin.

Hotels will not show any availability under the Program once the hotel has established a Blackout Date. However, any rooms booked under the Program prior to the Blackout Date being established must be honored (except as noted below in Industry Events).

Example

- On March 1, member #1 books two rooms for three nights at a hotel for a May 15-18 stay.
- On April 1, the hotel loads a Blackout Date for May 16.
 - The reservation for member #1 must be honored, as it pre-dates the loading of the Blackout Date.
 - On April 15, member #2 attempts to book two rooms for three nights, also for May 15-18, and encounters the May 16 Blackout Date. No availability would appear for May 16, but the member could book for May 15 or May 17 under the Program rate.

**Monthly maximum rule applies. See booking rules and stay parameters.*

4. Industry Events

The Program Rate Category INIOA will be available during a special event or special requirement as defined in IHG Concerto, unless the hotel has one or more Blackout Dates loaded during this timeframe.

- Member hotels are urged to put Blackout Dates into the system for industry events well in advance of the actual event date.
- Members and member hotels are responsible for being aware of industry-related events (“Industry Events”) and booking and managing the Program rate accordingly. Note: Members are not permitted to book under the Program for any hotels impacted by an Industry Event within a 25-mile radius. Examples of Industry Events include the IHG Conference, as well as conferences for AAHOA, NYU, Hunter, AH&LA, Hilton, Marriott, or other hotel brands. Hotels are not required to provide the Program Rate in these circumstances. Industry Events also include meetings hosted by the IHG Owners Association and IHG meetings.

If a member hotel has Program reservations booked during an Industry Event, hotel colleagues should contact the guest at least fourteen (14) days prior to the arrival date. Follow the steps below to assist members:

- Do not cancel the reservation at the hotel. Advise the guest to cancel his or her reservation(s) through the web, the IHG mobile app or using the Dedicated Member Reservation Line. Reservations canceled or modified by the hotel will result in the loss of free night(s).
- The hotel may offer to book a new reservation under a different rate, or suggest that the guest make alternate arrangements.

Courteous practices by both members and member hotels will help eliminate unnecessary Guest Relations issues that may negatively impact the host hotel and/or the members.

5. Reservation Requirements

All reservations are subject to hotel availability and a member’s Annual Allocation of free nights.

If a member has a valid reservation booked in advance, the reservation must be honored. Such reservations are to be treated as any regular reservation. If the hotel is sold out due to overbooking or any other reason, upon the member’s arrival, the

hotel may “walk” the member to another comparable hotel in accordance with the applicable IHG standard(s).

The Program reservation is valid for a standard room for two (2) adults. Room upgrades can be provided to members by the hotel upon check-in based on availability and IHG® Rewards Club Platinum status. (All members should be Platinum status.)

The granting of IHG Rewards Club points and welcome amenities are governed by the applicable IHG standard(s).

Each member is allowed no more than one (1) stay per calendar month at a member hotel.

- A stay may be up to three (3) nights in a row.
- Consecutive nights may be booked under separate reservations.
- Each member is permitted up to two (2) rooms per night, per stay.
- Once a member has exhausted his or her Annual Allocation, no further free nights will be available to book for that calendar year.

6. Guest Check-In and Stay Requirements

IHG Owners Association Free Nights may not be used on the same night as an IHG Employee Rate reservation. The IHG Employee Rate requires the employee to stay in the room booked under that rate. You are also required to stay in the room booked under the IHG Owners Association Free Nights Program. The employee rate may be used before and/or after an IHG Owners Association Free Nights stay.

The member must be present at check-in and must stay in the room booked under the INIOA Rate Category. If two rooms are booked under the same reservation, the member must stay in one of the rooms.

When checking in a guest under the INIOA Rate Category, the hotel’s front desk agent must ask for the following:

- Valid photo I.D. (a driver’s license or passport).
- Valid (current year) IHG Owners Association Member Benefits Card. The name on the Member Benefits Card must match the photo I.D. The member may present either a printed or a digital version of the Member Benefits Card.
- Valid credit card for incidentals.

Membership is validated during the booking process of an INIOA reservation; however, the member must present identification and a Member Benefits Card during the check-in process to validate to the hotel that he/she matches the name on the reservation.

The member may present either a digital copy of the Member Benefits Card on his or her mobile device or a printed copy. Either is acceptable as proof of the member's valid IHG Owners Association membership. The design of the Member Benefits Card is subject to change on an annual basis.

Members are advised that they must present their Member Benefits Card upon check-in. If they do not have their card at check-in, the host hotel may call the IHG Owners Association Offices during regular business hours at 770.604.5555, ext. 1 to verify the membership status of the guest. Please have the member's name, phone number and IHG Rewards Club number available when calling for verification.

If the individual is not verified as a current IHG Owners Association member, the hotel is not obligated to honor the INIOA reservation and the hotel may charge its regular, Best Flex rate or any applicable rate, at its discretion.

Only the cost of the room and room tax are free. The member is responsible for all incidental charges, taxes, resort fees, food & beverage expenses and any other applicable fees. It is recommended that any parking charges (if applicable) be waived for IHG Rewards Club Platinum members staying at the INIOA rate.

7. Cancellations and No-Show Reservations Requirements

Important: If a guest contacts the hotel to cancel or modify a reservation prior to the hotel's cancellation deadline, hotel colleagues must advise the guest that modifications at the hotel will result in the loss of all free nights associated with that reservation. Guests should be directed to the web, the IHG Mobile App or the Dedicated Member Reservation Line to make changes to their reservations.

If a guest contacts the hotel to cancel or modify a reservations after the hotel's cancellation deadline, it may not be possible to make changes via the web, the IHG mobile app or the Dedicated Member Reservation Line. In such cases, hotel colleagues should proceed with the cancellation and provide a cancellation number to the guest. The guest should be informed that the free night(s) used to book this reservation is/are forfeited, and the late cancellation is subject to

the hotel's cancellation policy. Any questions from the guest regarding this policy can be referred to the IHG Owners Association.

No-show Reservations: Charges will be assessed to the member in accordance with the hotel's Cancellation Policy. Charges will include the full regular room rate, plus taxes, at the hotel's discretion. The member will also forfeit the allocated Free Night for the first night of the reservation.

Cancellations Prior to the Member's Stay: To cancel a reservation and obtain a cancellation number prior to the member's stay, the member must request cancellation through their IHG Rewards Club account, on the IHG mobile app or by phone (either by calling the Dedicated Member Reservation Line or the CRO). Cancellation requests are handled in accordance with the hotel's Cancellation Policy. Reservations cancelled prior to the stay and in accordance with hotel's cancellation policy will not cause the member to lose any free nights from their Annual Allocation. In the event of a validated cancellation, all free nights that were applied to the reservation will be re-deposited to the member's Annual Allocation and can be viewed in their IHG Rewards Club account immediately.

Cancellations Made On Property, at Check-in or During the Member's Stay: Any reservations that are cancelled or modified at initial check-in or after the member has checked into the hotel will result in forfeiture of all free night(s) associated with that stay. Any such forfeited nights will not be re-deposited to the member's Annual Allocation. In order to ensure the re-deposit of free nights into a member's Annual Allocation, a reservation modification or cancellation must be made in accordance with the hotel's cancellation policy timeframe and must be completed online through the member's IHG Rewards Club account, on the IHG mobile app or by calling the Dedicated Member Reservation Line (i.e., not by phone with the hotel or in person during the stay).

Disclaimer

The IHG Owners Association Free Nights Program is applicable solely to current IHG Owners Association members. The Program Requirements are subject to change at the IHG Owners Association discretion.
